

MATHOM HOUSE

A Tradition of Service Excellence – Located in Bucks county, PA, Mathom House has been providing specialized residential treatment for adolescent males and support to their families since 1986. The program spans 15,000 square feet of safe and welcoming living spaces, classrooms, communal areas, gymnasium, and therapy offices.

We help youth who have experienced emotional, physical, and sexual abuse and trauma and/or sexual behavior problems using an intensive, four- phase treatment approach. In addition, Mathom House also provides treatment for those who exhibit a variety of co-occurring behavioral health issues. Each youth is challenged to fully admit his sexual misconduct; fully appreciate the harm he has caused his victims, their families, and his community; and find ways to avoid re-offending.

Concurrent Program Descriptions

Mathom House has two program descriptions accepted by the state of Pennsylvania: a Medicaid funded program and a county funded program. This means we can accept youth who meet medical necessity criteria, and youth who do not meet medical necessity criteria. In either case, youth receive the same high-quality services.

Expert Clinicians

Each member of our clinical team has at least a Master's degree and receive regular ongoing supervision and training which means they possess specialized knowledge and skill to implement treatment that will maximize prevention of future sexual acting out behaviors.

Streamlined Treatment

Driven with discharge planning as the goal from the start, assessment illuminates case-by-case differences among adolescents so that individualized treatment, and other service decisions can be based on a youth's risk level, treatment needs, and responsivity factors. Six empirically developed treatment tracks (Trauma, Sexual Interest, Social Skills, Conduct, Attachment-Reactive, Skills Building) capture common precursors of problematic behavior.

Program Details:

- Trauma informed milieu
- Individualized four phase model of care
- Customized program tracks to streamline treatment
- Expert level Doctoral and Masters-level clinicians
- Family therapy and support
- Discharge planning from the start

Academics

We understand that school can be a huge stressor for many of our residents. Each student is immersed in year round in a supportive learning environment where he will make the most of academic strengths, while also developing strategies to cope with areas of academic deficits. Our PA subject certified special and regular education teachers work alongside other staff to ensure each child receives the attention and support needed to succeed academically.

Performance and Quality Improvement: PQI

PQI Mathom House is committed to continuous quality improvement to ensure that we provide the absolute best care to the youth and families we serve. Using data we identify strengths and areas in need of improvement and create plans to spread best practice throughout the organization.
